

Rudy Moise: A New Voice for Us

Dr. Rudolph "Rudy" Moise

CHOICE

Rudy Moise is pro-choice because he believes deeply that reproductive freedoms must be protected. He knows that with choice comes autonomy and dignity for women. Rudy will work to ensure safe, legal, and accessible care to promote health and justice. He will speak out about the importance of critical reproductive health options for women.

HEALTHCARE

As a medical doctor, Rudy understands how important it is for women and families to have access to affordable, quality healthcare. Rudy support passing Healthcare Reform and knows that after seventy years of failing to pass universal healthcare Democrats are too close to passing reform to back away now, instead Democrats need to fight to pass healthcare reform.

JOBS AND THE ECONOMY

Rudy Moise has a track record of compassionate service to the community of South Florida, fighting to help working families. He is a successful small business owner who employs more than 500 people and he knows what its like to make a payroll. Rudy will be a voice for small business and working families in Washington and work to create more good paying jobs and help Main Street not Wallstreet.

WOMEN IN BUSINESS

President Obama has taken steps toward leveling the playing field for women in business but we need leaders in Congress who understand the challenges and opportunities of women business owners and who will fight for women in business in Washington because they are disproportionately represented in federal contracting. In Congress, Rudy will fight for stronger legislation that creates more opportunities for women in business.

EDUCATION

Rudy will work to make education a priority again. He will fight for greater investments in early childhood education, Head Start, and after-school programs. The federal government must work with states and localities to increase access to affordable, high-quality pre-K and kindergarten to as many children as possible.

INVESTING IN OUR FUTURE

Rudy Moise believes that we have to demand more from Washington but also believes that government can't solve all of the problems that plague our communities. He believes that in the end, we must lead and take steps toward moving our communities forward. That's why Rudy will fight to protect and expand funding for youth mentoring and after school programs and summer youth jobs to give our future an alternative to gangs and crime.
